Content & Exam Details

The bundle offers you access to the CNP study guide for **90 days** from the date of purchase. Once you feel confident with the content and material in the study guide, you can sit for the CNP Exam. The **2-hour** timed exam consists of **100 multiple-choice** or true/false questions, and you must pass with a score of 76% or higher. Your enrollment fee includes two attempts for the CNP Exam. Upon completing the exam, you will receive an email with your score and a breakdown of how many questions you got correct in each competency area. If you don't pass on the first try, the Alliance recommends you take additional time to study the areas where you didn't perform as well.

The study guide is organized into **6 modules**, each containing 4 lessons. On average, you should expect to spend 1-3 hours per module, dedicating less time to information you already know and more time to new content. You can stop and start the lessons at your convenience. In addition to the content materials, each lesson includes a case study with a fictional nonprofit called Kid Zone Youth Center to apply your knowledge and a short quiz to check your learning.

The modules are as follows:

Module 1: Management and Leadership of the Nonprofit Sector

Module 2: Designing Programs for Long-term Sustainability

Module 3: Nonprofit Budgeting and Financial Management

Module 4: Nonprofit Communications and Marketing

Module 5: Nonprofit Fundraising and Resource Development

Module 6: Innovation and Trends in the Nonprofit Sector

The final section of the study guide includes tips for preparing for the CNP Exam and prompts you to take the 100-question exam.
